## Moravian museums

### Bishop's Courtyard (Biskupský dvůr) – history of the Moravian flora and fauna

#### What awaits you?

- This diverse set of buildings, surrounded on three sides by a landscaped courtyard, is located in the historic part of Brno, under the cathedral church of St. Peter and Paul. The originally gothic building of the rectory of the Brno Chapter was bought in 1588 by the Bishop of Olomouc Stanislav Pavlovský (hence the "Bishop's Court") and thoroughly rebuilt for the new owner by the Italian architect Antonio Gabri. The alterations after 1600 were completed by Cardinal František Dietrichstein, the successor of Bishop Pavlovsky. A prismatic tower and a building with partially exposed grey brickwork and narrow angled and rectangular windows have been preserved from the oldest construction phase. In late gothic style is built the chapel on the second floor of the tower with the life of saints scenes. For the Renaissance phase, there is an eloquent arcade and a one-storey arcaded loggia. The permanent exhibition includes the exhibitions Fauna of Moravia and the Aquarium of Freshwater Fish.

## Dietrichstein palace (Dietrichsteinský palác) – history of Moravia

### What awaits you?

- The Dietrichstein Palace on the Cabbage Market (Zelný trh) in Brno occupies an important place in the baroque architecture of Moravia. It was built in 1614-1618 by Cardinal František Dietrichstein, Bishop of Olomouc, as one of the family residences. The assumption that the Italian architect Giovanni Giacomo Tencalla made plans for the construction is considered unlikely today. The entrance portal and vestibule recall the thorough reconstruction of the palace before 1748. Among the exhibitions, you will find the period of prehistory, the Middle Age, the world of minerals, traditional folk culture and more.

### Where?

- Zelný trh 8, Brno

### When?

#### Opening hours:

- Wednesday - Friday 9:00 – 17:00,
- Saturday and Sunday 13:00 – 18:00

## Old Town Hall (with access to the Town Hall Tower)

### What awaits you?

- Today, the Old Town Hall is used mainly for cultural purposes. In its premises, there is a gallery, the information centre and a permanent exhibition on the history of this building. In the summer season, you can visit the Crystal Hall, the Fresco Hall and the Jewel Hall or climb the 63-meter high tower, which promises an impressive view of Brno. Concerts, festivals, theatre performances and film screenings take place in the courtyard.
- The arched passage between Radnická Street and the courtyard forms a richly decorated portal with the legendary bent turret, created in 1511 by the sculptor and carver Anton Pilgram, a representative of late Gothic. There are two reminders of well-known legends in the passage - a bow wheel and a crocodile or the Brno dragon. The courtyard with Renaissance arcades from the end of the 16th century is the work of Italian builders; other modifications are the result of early Baroque reconstruction. The Old Town Hall served its purpose until 1935, after which the authorities moved to the premises of the New Town Hall on Dominican square.

### Where?

- Radnická 8, Brno

### When?

- **Opening hours:**  
Monday - Sunday 10:00 – 22:00
